-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

## DETAILED ACTION

### *Specification*

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
2. The abstract of the disclosure is objected to because it merely repeats a substantial portion of an incomprehensible claim language. Correction is required. See MPEP § 608.01(b).
3. Summary of the invention is objected to because it substantially repeats the incomprehensible abstract.

### *Claim Rejections - 35 USC § 112*

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 1 – 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. All of the independent claims require following limitation:

**changing said one of the second local memory and the third local memory which is to be mapped in part of the effective address space of the first thread to the other when one of the second processor and the third processor that executes the second thread is changed to the other.**

The above limitation is incomprehensible, even when read in light of the specification. The first portion of the limitation seems to suggest that one of the local memories belonging to one of the

Art Unit: 2189

two processors is to be changed to **the other** (first instance). First of all, it is not clear as to what “the other” means as there are three local memories recited in the claim. Secondly, even if “the other” memory can be identified, it is not clear what it means to “change” one memory to another. The second portion of the limitation seems to require that one of the two processors be changed to **the other** (second instance). The two problems identified above apply to the processor portion of the limitation as well. In addition, the two instance of “the other” seem to refer to different elements, which presents another conflict.

6. The Examiner asks that Applicant provide support for all amendments made to overcome this rejection by specifically pointing out passages and figures from the specification, so that the Examiner can properly understand and interpret the claims.

7. Since the claims cannot be interpreted properly and it is improper to apply prior art based on speculation about the meanings of terms employed in a claim or assumptions that must be made as to the scope of the claim, art rejections are not applied in this action. *In re Steel*, 305 F.2d 859, 134 USPQ 292 (CCPA 1962). See MPEP 2173.06.
